

# Powerful Antioxidants Proven to Protect

***Innovative vitamin delivery technology from AGERA® Laboratories—restoring a smoother, softer texture to the skin***

*AGERA® Laboratories has developed MagC®, a highly stable, proprietary form of Vitamin C (Magnesium Ascorbyl Phosphate).*

- *MagC® is designed to deliver high levels of this key nutrient into the skin*
- *Studies of human cell cultures have demonstrated increased collagen synthesis in the presence of high doses of Vitamin C*

**Promoting Healthy Skin Functioning—  
Powerful Protection Against Free Radical Damage**

- Free radicals are damaging agents that disrupt the normal function of skin cells
- Free radicals are caused by sun exposure, pollution, and other environmental factors
- Antioxidants combat free radical damage and restore a smoother, softer texture to the skin

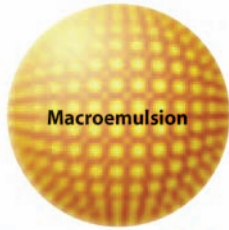

**Combating and Neutralizing Free Radicals—  
AGERA® Skincare Products Deliver High-strength,  
Stabilized Forms of Vitamins A, C, and E**

- The benefits of Retinol and Retinyl Palmitate (Vitamin A) include helping create healthier skin cells and increasing the amount of skin-support substances
- The benefits of Vitamin C include promoting collagen production, thickening the dermis, and strengthening the skin's repair mechanisms
- The benefits of Tocopherol (Vitamin E) include reducing formation of free radicals, preventing peroxidation of fats that cause cell membrane damage, and reducing transepidermal water loss

AGERA®  
Nanoemulsion technology™

## Visible Results Without Irritation

AGERA® Laboratories has developed a wide range of scientifically designed products formulated to penetrate the skin and activate its healing potential.

- **Specially manufactured nanoemulsion and nanoparticles** allow powerful ingredients to penetrate and promote healthy skin
- **Proprietary proliferative Lipopeptides** developed to help stimulate collagen and elastin for firmer, younger-looking skin
- **Powerful antioxidants** combat free radical damage for smoother, softer skin
- **Retinol** penetrates the skin to help reverse the appearance of fine lines and wrinkles and reveal new radiance
