

Professional Treatment Products for Specialized Skincare Needs

**AGERA® offers a wide range
of advanced products**

developed for use by the
skincare professional during
spa/salon treatments. These
include a variety of exfoliants,
masks, and peels specialized
to meet the special needs of
different skin types.

AGERA® CATALYSE ENZYME GEL

A specialty product in a stabilized
anhydrous formulation; oxygenates
for smoother, younger-looking skin
(designed to be used with AGERA®
Aerobic Infusion Cream)

**AGERA® DETOXIFYING
CLAY MASK**

High-purity clay/bentonite mask
removes excess oils and impurities
from the pores; detoxifies by
removing heavy metals leaving skin
clean and toned

**AGERA® ENZYME GEL
EXFOLIATOR**

Utilizes proprietary, stabilized enzyme
technology to dissolve dry, flaky skin,
leaving the skin soft and glowing

**AGERA® MARINE GEL
HYDRATING MASK**

Provides maximum humectant
hydration for dry, dehydrated skin;
infuses the skin with marine extracts
and Mucopolysaccharides for a
healthier, younger appearance

**AGERA® MICRODERMA
CRYSTAL C MASK**

Gently exfoliates and stimulates
collagen production via a mildly
abrasive Bicarbonate/Vitamin C
crystal mask; instantly leaves skin
smooth and radiant

**AGERA® MICRODERMA
CRYSTAL C ACTIVATOR**

Activates the AGERA® Microderma
Crystal C Mask to gently buff away
old skin, leaving the face smooth and
radiant; antioxidants defend against
free radicals and AHA stimulates
collagen

Professional Treatment Products for Specialized Skincare Needs

AGERA® offers a wide range of advanced products

developed for use by the skincare professional during spa/salon treatments. These include a variety of exfoliants, masks, and peels specialized to meet the special needs of different skin types.

AGERA® PRE-PROCEDURE ANTI-INFLAMMATORY BASE

Works to defat and cleanse the skin prior to procedures; contains non-Hydroquinone pigment suppressors and delivers anti-inflammatory benefits

AGERA® PLUS PEEL 24

Rapidly penetrates using a combination of AHA/BHA (Salicylic Acid 8%, Lactic Acid 8%, Citric Acid 8%) in a low-pH peel; produces low irritation, maximum proliferation (designed to be layered as needed)

AGERA® PRO PREPPING SOLUTION

Prepares the skin for microdermabrasion treatments, reducing the mechanical sensory effects and improving the tolerance of the skin

AGERA® SIMPLY C PRO PEEL SYSTEM (POWDER & ACTIVATOR)

A 20% L-Ascorbic Acid/Antimicrobial Ethanol peel system for mild acne, hyperpigmentation (with pigmentation-suppression products), and environmentally damaged skin; provides proliferative Vitamin C treatment

AGERA® SKIN-FIRMING EMOLLIENT MASK

Provides emollients and humectants with Oat Glucan to firm, revitalize, and improve skin elasticity; soothes sensitive or irritated skin, and reduces redness

AGERA® SKIN RENEWAL AHA 20%

Removes dead skin cells and increases cell turnover; offers active-strength AHA with Beta-Glucaderm® in a professional strength to help reduce the appearance of fine lines and wrinkles
