## Visible Results Without Irritation

AGERA® Laboratories has developed a wide range of scientifically designed products for use in the medical setting. The products in our Skincare System line work to penetrate and activate the skin's healing potential.

- **Specially manufactured nanoemulsion and nanoparticles** allow powerful ingredients to penetrate and promote healthy skin
- **Proprietary proliferative Lipopeptides** developed to help stimulate collagen and elastin for firmer, younger-looking skin
- **Powerful antioxidants** combat free radical damage for smoother, softer skin
- **Retinol** penetrates the skin to help reverse the appearance of fine lines and wrinkles and reveal new radiance
